

# Muhammad Hasaan Sultan

## Senior Full-Stack Developer

+92-310-1528766 | hasaansultan0@gmail.com | Pakistan (Remote-ready, flexible with US/EU hours) | [Add your LinkedIn URL] | [Add your GitHub URL]

### SUMMARY

---

Senior Full-Stack Developer with 7+ years of experience designing and building scalable, high-performance SaaS applications across the full stack, using React.js, Svelte.js, TypeScript, Node.js, and ASP.NET Core. Strong expertise in component-based architecture, state management (Redux, Context API), REST API design and integration, relational and NoSQL databases, and cloud infrastructure (AWS). Proven track record leading front-end teams, mentoring engineers, and delivering accessible (WCAG), AI-powered products in Agile, distributed/remote-first environments.

### EXPERIENCE

---

#### PackageX Inc — Global Logistics SaaS Platform

Islamabad, Pakistan

Senior Front-End Developer | Jun 2022 – Present

- Design and implement responsive web interfaces from Figma mock-ups using React.js, Svelte.js, Tailwind CSS, Ant Design, Material UI, and Styled Components.
- Engineered a customer engagement platform using React.js and Svelte.js that improved user satisfaction scores by 25% and reduced support queries.
- Built and shipped transactional email templates for Mailroom/Receive products, reaching 300,000+ users and increasing engagement.
- Led a UI overhaul of the Receive Dashboard, incorporating feedback from a 15-person team; cut new-user training time by 25% and increased platform adoption.
- Partnered with back-end engineers to design and integrate RESTful APIs, ensuring reliable end-to-end data flow.
- Implemented JWT-based authentication and authorization to strengthen application security.
- Led front-end architecture for a logistics operations dashboard built with Svelte.js and Tailwind CSS.
- Drove Agile ceremonies (daily scrums, sprint planning, code reviews) and mentored junior engineers.

#### VisionX Technologies — AI Services & Digital Solutions

Islamabad, Pakistan

React.js Developer | Sep 2020 – Jun 2022

- Integrated Google AR SDK to render real-time 3D product models, enhancing the e-commerce shopping experience.
- Rebuilt and maintained a legacy mailroom dashboard, shipping new features and providing ongoing support.
- Built the company's marketing website with Gatsby to improve customer engagement.
- Partnered with the marketing team to implement SEO improvements, optimizing site performance and discoverability.

#### Inclusive UAE — Disability-Inclusive Employment Service

Remote

React Developer | Mar 2020 – Sep 2020

- Led development of an accessible social platform in React that drove a 40% increase in engagement among users with disabilities seeking local jobs and community events.
- Translated Figma designs into responsive, reusable React components built to WCAG accessibility standards.
- Used Styled Components and React Hooks for efficient state management and consistent UI.
- Conducted architectural design reviews at both system and component level.

#### Whinstone (Pvt.) Ltd — ERP Solution Provider

Islamabad, Pakistan

Full-Stack Developer | Dec 2018 – Feb 2020

- Built full-stack CRM and assessment solutions using React, ASP.NET Core, and MS SQL.
- Created reusable front-end components to improve code maintainability and development velocity.

- Owned the full development lifecycle: architecture, design, debugging, testing, deployment, and version control.
- Implemented back-end web services with ASP.NET MVC and Web API to optimize functionality and performance.
- Used ADO.NET and Entity Framework for database operations on SQL Server.

## NOTABLE PROJECTS

---

### **PackageX Receive** — *Enterprise Last-Mile Delivery Platform*

*Tech Stack: React.js, Ant Design, Firebase, Styled Components, Redux Toolkit, TypeScript*

- Built a digital mailroom management system using React, Redux Toolkit, and TypeScript, improving operational efficiency for corporate clients.
- Developed a multi-channel notification editor supporting email, WhatsApp, and SMS message customization.

### **AI-Powered Content Automation Tool** — *Claude API (Anthropic) Integration*

*Tech Stack: React.js, React Query, Tailwind CSS, Context API*

- Built an automation tool integrating the Claude API with third-party APIs to parse web content, extract contextual themes, and generate natural-language, context-aware text.
- Demonstrated end-to-end LLM integration, API orchestration, and prompt engineering in a production-style workflow.

### **PackageX Platform** — *Logistics & Supply Chain Management Platform*

*Tech Stack: Svelte.js, Tailwind CSS, Svelte Store, Zod*

- Designed and built a logistics and supply chain management platform in Svelte.js and Tailwind CSS, covering inventory management, fulfillment, and shipping modules.

### **ImInclusive Social Media Platform** — *Job Search Platform for People with Disabilities*

*Tech Stack: React.js, Material UI, Redux, React Hook Form*

- Built a digital inclusion hub for the MENA region using React and Styled Components, connecting people with disabilities to local jobs and opportunities.

### **Vista EPA** — *Online Assessment Solution*

*Tech Stack: React.js, Ant Design, Redux, ASP.NET Core, MS SQL*

- Developed an exam and certification platform using React and ASP.NET Core for UK-based clients.

## AWARDS & DISTINCTIONS

---

- Two-time Best Performance Award, PackageX Inc.
- Gold Medal & Distinction Certificate, National University of Modern Languages, Islamabad.

## SKILLS

---

**Languages & Frameworks:** JavaScript, TypeScript, React.js, Next.js, Svelte.js, Node.js, Express.js, ASP.NET Core, ASP.NET MVC

**Front-End:** Redux, Context API, Tailwind CSS, Ant Design, Material UI, Styled Components, Handlebars, WCAG Accessibility

**Backend & APIs:** REST APIs, JWT Authentication, ADO.NET, Entity Framework, Mongoose

**Databases:** MS SQL, MongoDB, Firestore

**Cloud & DevOps:** AWS (S3, ECS, Lambda, EC2, Cognito), Git/GitHub

**Practices:** Agile/Scrum, Code Review, Mentorship, Cross-Functional Collaboration

## EDUCATION

---

**National University of Modern Languages**

*Bachelor of Software Engineering (BSSE) | 2014 – 2018*

*Islamabad, Pakistan*
